I don't care if they cut your throat  
If you are a victim I don't care if they rape your soul  
If you are on your own

What a fuck are you thinking of  
That you are some kind of God of all  
What a fuck are you waiting for  
Just spit out your blood

I don't care about your murder

I don't care if you are tortured

You have deserved this pain  
I know your life can't be saved  
I am pure insane

Torture  
Bloodshed  
Killing  
Satisfies me

The Death is spreading in your veins  
You are out of control  
You won't see the sun go down  
You are out of control

I don't care about your murder
