Hypocrite machine of greed  
Healing the leprosy of the south  
Tearing souls pure  
From the flesh corrupted

Forty days of murder  
Salvation with blood  
Century of holy flames  
Light the path of heresy eraser

Force will prevail  
Where blessings failed  
Feel the harsh love of god  
In flame and blade

Genocide in the name of god

Monopoly of faith protected  
Voracious pilgrimage of brutality sanctified  
Dissenter extermination  
Baptism of fire and blood  
Nation put at stake  
Return of dark age of Christ

Erecutioners and martyrs  
Slaves of the same god  
Choose your own from those  
Slain in the grace of thy name..
