

## **Adrenalin O.D. "World War IV"**

Visit "[World War IV](#)" on [MotoLyrics.com](https://MotoLyrics.com)

We're still alive, how did we survive  
We're hairless zombies, with melted down eyes  
We live in caves, we live underground  
We're the last forms of life to be found  
We thrive on radiation, we eat dirt  
We live from day to day  
Go for walks in the invisible rain  
We need plutonium for our sterile brains

We want radiation yes we want radiation  
Can't wait for World War 4

We're easy to spot cause we glow in the dark  
Fluorescent blood flows through our veins  
Sometimes we wonder outside  
To soak up gamma rays  
We crawl around on our knees  
Critical masses are what we need  
Hope some day we find some commies  
So we can start World War 4
