Blast felt around the world  
Shake the foundations of life itself  
Mutual destruction the goal  
Destroy in one second 5 billion years

The second wave... ends what the first started  
The second hand... counting down the hour

100 years of radiation  
1000 years of pain  
10.000 years of desperation  
1 second without thought

The last remnants of man  
To ashes we turn  
Burn in the pyre  
Fire engulfs what's left  
Evil invaders, black reigns  
Scarlet tears

Blast felt around the world  
Shake the foundations of life itself  
Mutual destruction is the goal  
DEVASTATION!  
Last remnants of man  
To ashes we turn  
Burn in the fire  
Fire engulfs what's left  
RADIATION
