Collision course;  
Unknown is the path  
That leads to demise  
Extinction level,  
Event unfolds before your eyes  
A curse? an omen?  
In the fire we'll be cleansed  
The coming destruction  
Upon us; no defense  
A prophesy? prediction that's so old  
Leaves the planet cold  
Ignorance? a blessing in disguise?  
The price of knowing?  
To know this is goodbye  
To die awake: Awakening of the Gods  
The odds against us  
(brace for impact)  
hell approaches at near light-speed  
...all life dies  
(mankind must face the fact)  
A race against time...  
(brace for impact)  
Death appearing in the blackened sky  
...we die!  
(mankind falls dead)  
Brace for impact  
The coming of the end

Deadly force,  
Now known is the fate  
That leads into Hell  
Evolution derailed  
Dominant species fails  
The clock it ticks  
The final page is read  
Now tolls the bell,  
Life hangs now by a thread  
Defiance? there's no chance to survive  
Our science fails  
As nothing's left alive  
To die afraid: afraid of what will come

The Gods have left us

Nemesis: comes the opposite of life  
Life in the balance  
Comes now the fire  
Fire raining down,  
Down the rivers of denial  
The blood of every nation:  
Will splash ashore  
Apocalypse is coming  
Armageddon at our door  
Father Death has dealt his hand,  
The dice is thrown  
The debt now paid  
Made afraid, laid to waste, our fate  
The Sun will never rise again,  
All hope is slayed  
The final card is played  
The game is: chaos reigns!...
