Brain-dead clone, do as you're told  
Programmed at birth  
"Chosen" fate unfolds  
Production line-a processed race  
Soul-less fuckin' robot  
Expression-less face

Fall in line-follow the herd  
Wear the chains of the slaves  
Stay in line- believe their words  
From the cradle to the grave

Can't you see you're all the same?  
An empty space  
Where there should be a brain!

Life mapped out  
From your first breath  
Repeat set patterns  
Until your death  
Destroying thought  
Crushing your will  
Reset your brain all hope is killed
