"FIGHT TO THE DEATH"

Spreading death across the land
Vicious attack
Legions of the unwashed swines
By missiles tracked
Blinded by the nuclear blast
All cities fall
The future now in doubt
The gates are closed

Fight to the death
Bomb 'em to Hell
In torment you dwell
Fight to the death

Angry fists, the button's pressed
Total dismay
Winds bring viruses
Life slips away
System fails, unholy hordes
Are raging wild
Deceit the only prize
Truth lays dead-defiled

Fight to the death
Now sounds the bell
Send 'em to Hell
Fight to the death

Dressed to die, napalm will fall
The time has come to kill 'em all
The sky is black, the night is dead
Pawns of war under command
To the death
