"Here"

When the smoke had settled
From the angry fires
That burned away part of my life
Then I thought I was standing
On the edge of time
But through the haze
I saw a light

I don't know what it was
I thought I'd find
Nothing left under the stars
I swam across the sky
And pushed the clouds aside
To find you there with my heart
I've come a million miles to be with you
I swam across the sky
Here I am

Here...underneath the sun
Here...we're the only ones
Here
And when I see your face
It lights another day
And all my broken pieces
Fall into place

I've come a million miles to be with you
I swam across the sky
Here I am
