How comes you land  
On your feet every time?  
Why is your sky  
Always bluer than mine?  
I choose to push  
You know I should pull  
My glass half-empty  
Yours half-full

Call me human garbage  
Think their words really hurt?  
Label me as shit  
They say my name is... dirt!

How comes you're happy  
While I'm feeling like shit?  
Rain fell like piss  
It's me it would hit!  
Catch 22-can't help how I feel  
My life or death?  
Huh! both don't appeal

Dirt! -king of the sewer  
I'm dirt! -lord of the filth  
I'm dirt! -dirt! -human debris

I'll live with the rats  
In the home that I've made  
My pre-fab slum where no rent is paid  
Born in the gutter that's where I'll stay-fuck what they  
say!

You're so popular  
Always making new friends  
I'm so despised  
My relationships end  
Not of your world  
I don't seem to fit  
Cos what I touch, man;  
Turns to shit
