Only playing songs
By the bands you know that matter
It's infernal!
It's infernal!
Sonic terrorism
Makes your ear-drums shatter!
It's infernal!
It's infernal!

Play the new-school bands
Who have got a cool new song
And the old-school shit
That's been around so long

Turn the volume up to 10
And listen-listen to the show-show!

Infernal waves-infernal!
Only play it if it's from the heart
Infernal waves-infernal!
Keeping faith or the scene falls apart
