"MURDER MACHINE"

Kill mechanism, all systems go  
Man and machine as one  
A hi-tech love affair  
Meeting of flesh and bone  
Loked-on... happiness is a warm gun

Murder machine  
Murder machine  
All systems go... go!

A perfect union, cold steel and bone  
The slaughter has begun!  
Night vision ecstasy  
Blind to reality  
Sweet nothings... whispered machine code

Murder machine  
Murder machine

A brutal symbiote  
Genetic overdrive

Mental contagion  
Unhuman over-ride

Heartless technology  
Unfeeling auto-glide  
Unfeeling auto-glide

Music : N. Evaristo  
Lyrics : N. Armstrong
