Build the perfect weapon
Use aggressive manipulation
Far from divine blue-print
Man plays God, micro-aggression
Re-arrange the order
Let the beast out of the door
Miniature the tyrant
Unleash endless inner-war

Raging within!
Perfect the virus
Torment begins!
Perfect the virus
Striken with fear!
Perfect the virus...

Perfect the virus

Subjective reign of terror
As the population's scythed
Pathogenic nightmare
Thin the flock; mass genocide
Devastate the order
Let annihilation start
Brutalized genetically
D.N.A... ripped apart
