### "Ravenous Metal"

Evil dominators reach inside  
& break your codes  
(steal your life)  
Mass manipulators  
Take your soul as a download  
(blind your eyes)  
Vile violator,  
Viral rape amongst the stream  
(blur your sight)  
File desecrator bit by bit  
Access your dreams

Ravenous metal

(twisted technology)  
Sentient drones control the world  
(techno-death)  
Metal is as metal does  
The Iron Law

There's nothing you can do  
To stop infection running through  
The world you've killed
