A crack of thunder
Breaks the moon-lit sky
Power surge leads:
Leads to your demise

Flesh will burn
Bones will char
There's nothing you can do
Fried alive
Boiled inside
A bolt sent from the blue

Blast: will strike
Snaking from above
It's gonna course
Right through your veins
Massive voltage: over-load
The vengeance of the Gods
Is gonna fuck you up again

Struck by lightning...(twice)
Struck by lightning
Nurse! go get me ice!!

Electricity runs down your spine
Adrenalin; will surge again
Fucking up your mind
Flesh will burn
Bones will char
A pain you've never felt
Fried alive
Boiled inside
You feel your brains will melt

(flesh will burn)
(bones will char)
(fried alive)
(boiled inside)
