Contagion spreads  
The wind carries death  
Has God baits his breath  
The angels hide  
Has heaven knows hell  
In certainty they dwell  
Abandon the throne  
As ashes rise

Contagion spreads  
The wind carries death  
The angels hide  
Has God baits his breath

Lost! - terminal incident  
Last! - the last experiment

Disaster reigns  
The rain brings the end  
To Hell we descend  
All life will stop  
Mans final error  
Unleash bio-terror  
Mutation in progress  
Man plays God

Terminal

The virus takes hold  
System so sick invade your soul  
The path to the outside is closed  
Rage out of control  
Infection gets worst  
Syndrome "X" now takes effect  
Life now a curse  
Uncounscious reflex  
My search for a cure now ends

The, the logical end  
The last experiment are patience X  
Contagious, rising faith  
The final, the only

Last breath of the lonely  
Human impurity
