Deaf and blind to all  
Violent twisted mind  
Mechanized to kill at will  
A soul no longer alive

They kill, you kill,  
We kill - (2x)

Old reasons to act so cold  
Deciding who lives and dies  
Hell is waiting warm  
Truth exists afar

They kill, you kill,  
We kill - (2x)

Lives controlled like mice  
Aggressions kept so uncontrolled  
Put in trance to decide the future  
As hell unfolds  
Emptiness your grave forever  
Never had a chance  
Insane you are  
You can't escape  
Democracy in flames

They kill, you kill,  
We kill - (2x)

Kill...  
Kill...  
Kill...
