There's a company close to my home  
They mess with my genes  
And chromosomes  
They alter the D.N.A. of my food  
Put shit in the water  
To change my mood

Sodium fluoride and P.C.P's  
Chemical cocktail of C.F.C's  
Modern day Frankensteins  
Stealing our brains  
Pour toxic chemicals down our drains  
We live in a toxic society  
Poisoned people - toxic society  
We live in a toxic society  
Deadly world - toxic society

Hang power cables  
Over your house  
Treat you like a laboratory mouse  
Radiate me through the phone  
Frys my mind & makes me a clone
