Victims crawling through the wreckage  
Fallen race takes it's last breath  
Pulse slows - to a crawl  
Silent Hell - to live means death

Systems raped  
Systematic reaping  
Broken world...  
... of life devoid  
Evolution at a stand-still  
Mankind steps into the void

Six billion screams  
Our last serenade  
Day turns to night  
As vital signs fade

Futile cries of an endangered species  
Humanity falls to it's knees  
Selection process a random harvest  
Mankind has become a disease

Life expectancy in free-fall  
Bio-collapse - rapid decline  
Tip the balance into terror  
Ground-zero paradise

When the shit hits the fan  
Where will you stand  
As vital signs fade?  
When the shit hits the fan  
All will be damned  
None will be saved  
When the shit hits the fan  
Where will you stand  
As vital signs fade?  
When the shit hits the fan  
Vital signs fade
