I'm taking alight to what I see  
I'm holding my breath, consciously  
I'm doing this all, so you can see  
So you can see

I'm doing what I can  
To be yours  
And I'm making all these plans  
For you to understand  
I notice you, please notice me too

I'm taking in mind to what I see  
I'm playing along, consciously  
I'm doing this all, so you can see  
So you can see

I'm doing what I can  
To be yours  
And I'm making all these plans  
For you to understand  
I notice you, please notice me too

In time, you will know the reason why (In time)  
In time, everything will just be right  
In time... in time... in time

I'm doing what I can  
To be yours  
And I'm making all these plans  
For you to understand  
I notice you, please notice me too
