"The Greatest Decision"

If our weakness comes out once again, it will be
another win to them; it
Will mean the death of our movement. My mind, says,
it's better to know
Than eat lies. Why would you die without a fight to
change the world, and
Shape your mind? To end all your ignorance right now,
turn this world
Around; you can change your rights now. it's time to
decide will you sit
Back and let this die or could you defend your rights
until the end of your
Life. If my thoughts and your dreams will come
tomorrow as for now I can
Hope that you will see the barriers between your life
and the freedom
Uncompromised by the fear and now a promise that
we'll bring change.
