Lyrics for "I'm here" (from )  
I'm here (4:16)

I took care of my personality, til the point when my soul  
was crying,  
Putting my dreams aside just for awhile, only made me  
numb inside

Can someone pick me up and rescue me,  
Like the way that my father did when I was young,  
But he couldnt be there anymore, guess I'll do it on my  
own

Chorus

I'm hereand I'm craving my tears, I don't feel so  
unsafe,  
And I don't feel so cold, I'm not hiding again, behind  
my bedroom door,  
I'm hereand I'm craving those years, when I just felt  
asleep on the floor,  
When I had time to play, and didn't worry at all.

I picked up all the pieces and I threw away,  
All the ones that were eating me up inside,  
I don't need to collect dust anymore, Life is so much  
better now.

Not fulfilling my precious thought of youth,  
Growing up I was dying just to fly away,  
But I'm not afraid to dream anymore, that's the only  
thing that got mehere

Chorus

I took care of my personality,  
Just fulfilling the hunger of this world,  
But the things I wanted as a child,  
That's what makes me shine inside
