Give me the poison to restore my wounds  
This filthy water drive me insane  
I know, this trance it never ends  
All that I want is pure death...

Whatever I feel,  
Whatever I breath

Silence, I am the one who speaks  
Silence, let snowed white dreams

I want to be lost - forever  
I heal my past

I sown the seeds of loss  
In the valley of unexpected realm  
Where flesh and dreams reborn  
Reaping the harvest of rain...

...Is beating till bled my heart  
This pain I feel will never be undone  
Fill my veins with dope and ecstasy  
I am of my own creation thing

It's like a plague that never goes away,  
It's always there hiding in the corner of the mind  
And waits...until you're ready to embrace your warm  
body

Like a plague that never goes away  
A broken toy in the garden of Eden  
Painting the disaster of the physical substance

I want be to lost - forever  
I heal my past
