Necroscope

I can see to the other side

I can feel the dying sign

It's a vision that brings the vacant light to surface

Sovereign of apocryphal dimensions

Liberate the spirits of doom

Necroscope

My one precious telescope

A navigator to the opposite edge

A silver dimension that drives everything in space

Sovereign of apocryphal dimensions

Liberate the spirits of doom

A sudden death is always like a sudden kiss

The smell of rotting flesh will always be there

I see the Hand to approaching in my eye

I consider the truth is an absent vibe

Like a blind man that can see the blaze

I follow the destiny into my own haze

Far away, they are dying

I stand and watch

Far away from the light

The sudden birth

Far away, they are dying

A sonic chaos

Far away from the light

A divine watcher, architect of life

Necroscope,

The only guide to the unknown

A tool to watch the source of god

An instrument of the devil's shore

I see the Hand to approaching in my eye

I consider the truth is an absent vibe

Descent, human act -
A Sinful watcher
Confess the sins
Symmetric fact
Stairs to the unknown

Absence of mankind
A healing tool
Swear to the top
Like a sick of faith
