Astral Conversions, spiritual modes  
Invalid termination of a tyrant yoke  
Parasites of innocence, the accident of god,  
The plague of suffering reminds the coming of the fall...

Depraved emotions, a sanctum place.  
Zodiac circle, the signs of Hell.  
The law of heritage on a chimera based,  
Labyrinth of genesis division's parade.

Electric perversion for a human being  
Perpetual motion like an infinite sin.  
A schism of holiness, the science of will,  
Crossing the universe with nails and dreams

Religious archetype, the parody of a mass  
The void solution like a God with mask

Artificial silence, a never ending faith  
The roots of abhorrence command the instinct of hate...

Insulting the virtues of a sun with an endless light  
Between... between the ruins of the mind  
Defecting to the esoteric isolation like an eye  
You are incited to betray...

Possessed by visions, an ultrasonic end  
Chemical systems... of the broken DNA  
A soul with chains  
The egg of knowledge

Depraved the spirit of those who keep the flames  
Behold the eruption of the cosmic seer

A vortex of renewal - a whirlpool of souls
