I want to tell you all the secrets of my life  
Because you don't know  
You don't know how I feel here on the inside...  
Touch my face with your hands  
Let my hair come tumbling down  
I will open like a flower to you  
Fallen on the ground...

My voice whispering to you  
I want your body in mind  
My words echoing through you  
I want your body in mind  
My heart beating next to you  
I want your body in mind  
My love flowing right through you  
I want your body in mind...

Lay down  
Lay me down  
I want to lay me down with you...

For I am conscious you have touched my inner soul  
Because I'm aching  
Aching for my body to let go...  
Enter in - trust in me  
Taste the essence of me here  
Every moment I am breathless for you

Lasts a thousand years...

My voice whispering to you  
I want your body in mind  
My words echoing through you  
I want your body in mind  
My heart beating next to you  
I want your body in mind  
My love flowing right through you  
I want your body in mind...

Lay down  
Lay me down  
I want to lay me down with you...

I am both far and near from you  
As you are from yourself as one...

Lay down  
Lay me down  
I want to lay me down with you...

My voice whispering to you  
I want your body in mind  
My words echoing through you  
I want your body in mind  
My heart beating next to you  
I want your body in mind  
My love flowing right through you  
I want your body in mind...
