

## Aeone "One Tribe"

Visit "[One Tribe](#)" on MotoLyrics.com

If I were a country without borders  
I would change this old world order  
And let you in...  
I would be a tree in summer growing  
A symbol of life flowing  
My leaves and branches opening...

I call the image down to me  
With each breath - a prayer I speak  
Make us One Tribe...

One Tribe...

If I come to you  
Will you come to me  
With every language - sacred to you

If I were a boat upon the water  
I would sail your sons and daughters  
To the lands of the free...  
I would grow a garden that was ours  
A natural home of flowers  
All in bloom eternally...

I call the image down to me  
With each breath - a prayer I speak  
Make us One Tribe...

One Tribe...  
Heal with a human touch  
Nothing else if left for us  
Make us, be One Tribe...

Come in the dark when the night is lonely

Open your heart to something holy  
Sing with the lark before the break of dawn...

If I come to you  
Will you come to me  
With every language - every creed  
If I trust in you

Will you trust in me  
So we could all be One Tribe...

I call the image down to me  
With each breath - a prayer I speak  
Make us One Tribe...  
Heal with a human touch  
Nothing else is left for us  
Make us, be One Tribe...

If I come to you  
Will you come to me  
With every language - every creed  
If I trust in you  
Will you trust in me  
So we could all be One Tribe...

One Tribe...  
We'll all be One Tribe...  
We'll all be One Tribe...  
One Tribe...  
We'll all be One Tribe...  
One Tribe...  
We'll all be One Tribe...  
One Tribe...  
We'll all be One Tribe...
