[Asheru]

Ashane brought the Nomo, Nomo brought the word
Which is Asheru, the crew is Unspoken Heard
Wes Jackson had the vision, and brought it to fruition
With a little hard work, perserverance and intuition
Seven heads is the label, free to just to be
The envy of emcees, my man trust me
What once was a logo, is now in my bloodstream
People always ask, yo Ash what does it mean?
And I tell em you, yo we represent the masses
A heard of folk, that came to set it on your asses
That's why i'm teaching classes, life is my syllabus
Take out what you can, cause no one will deliver us
Jack shit, we moving backwards, in a downward spiral
The rest of ya'll is swimming in denial
Meanwhile, like we told ya'll it's about time
Better make way for me and mine

Chorus

We gotta do what's rightfully our's like a Maroon done,
Soon Come
We wanna stand tall and shine bright like the new sun,
Soon Come
The time for shucking and jiving and playing it cool is
done, Soon Come
We live by the principle of the snare, bass, and drum,
Soon Come

[Blue Black]

Fear aint a factor it's the pain that's real
That's why brother's run from guns made of stainless
steel
You can hear, streets of horror against the night
From the helpless without enough defense to fight
Children grow too fast without a strong foundation
They aint built to last, they reject and pass
Cut class inner generation's gaps is ??
So they scared to ask, it's a difficult task
We gotta, unlearn the lie, and unveil the mass
Teach em how to be thoro, and knock em half assed
Everything that we want is right behind the glass

Yo it your's for the taking, hit em, full blast

Chorus

We stand face to face with hardship ya'll, we never run,

Soon Come

Going out to all of my Cinnabunz and when we're done

Soon Come

We wanna welcome you all into the new millennium,

Soon Come

Remember staying proper, and don't forget where you

come from, Soon Come

[Asheru]

Im 24 years old, moted by my peers and family

Keep em close cause no one else can handle me

Some might find it strange the way I change moods

One minute from the next, go from happy to vexed

With no prob, I'd be foolish to think there's no comp

With brothers outside my show standing rough like

wanna rump?

Well Hip Hop is what I do

You think a brother can't do this simply for the art, but I

do

You put this in a capusule for years, because it's

timeless

These rhymes aint only nice, son i'm killing em with

kindness

And you won't find this side by side with this fireless

Watered down pop shit, bleached out and rhymeless

You can go and get my brother Wes to co-sign this

Seven Heads stay in the plus and not the minus

Bascially meaning I got security like Linus

To keep pressing more, never looing back behind us

Chorus

We gotta take what's rightfully our's like a Maroon's

done, Soon Come

We wanna stand tall and shine bright like the new sun,

Soon Come

The time for shucking and jiving and playing it cool is

done, Soon Come

We live by the principle of the snare, bass, and drum,

Soon Come

Truth, balance, harmony, love, life, equality, all of the
above

Moutnains we gotta climb, are all equal to one , Soon

Come, we Soon Come

Truth, balance, harmony, love, life, equality, all of the
above

Moutnains we gotta climb, still equal to one , Soon

Come, Soon Come
