What kind of girl can pick you up when
You're getting down
What kind of girl is the best of things
Rolled into one
What kind of girl would go anywhere
For you
What kind of girl, the best kind in
The world
So I think if I stay with you
I think I'll probably rule the world
Yeah I'm sure if I stay with you
I'm pretty sure I'll rule the world

What kind of guy deserves to be
Treated like a king
What kind of guy?

What kind of guy would give away a ring
What kind of guy the luckiest in
The world

I see the way you look at me
I know the way you feel about me
I'll give you anything if there's anything
I can do
I'll give you anything if you'll just give
Me you

She's got nice hair but I don't care
Her teeth are straight and white
I love her because she's a part of me
Yeah, straight and white
