I wanna leave you  
But I just can't leave you  
I keep coming back for a little more of Your love  
I wanna go away But honey, I just can't stay  
I keep coming back for a little more of your love

And I can't understand when try as hard as anyone can  
Each night I dream I wake up and scream  
Aah Baby, That I love you woman I love You  
Oh Baby, I realise I treat you wrong  
But I'm so sorry Let me come back were I belong  
You see I'm Your fool I lost my cool  
Ah Baby, that love You woman  
I love You And I wouldn't lie  
Oh, but I lay down and die

Oh Baby, that I love you woman  
Oh Baby, that I love you woman  
That I love you woman

I love you
