everybody steady  
your guns  
everybody ready  
i'm feeling superstitions, baby  
roll over me

when you hear the first shot  
then give em everything you got  
unload the lead until the night  
they both agree

all i need, all i need  
all i need, all i need

and when everybody's dead  
you'll find me underneath the bed  
i've taken everything you said  
inside of me

all i need, all i need  
all i need, all i need

come on, get some baby  
come on, get some baby

and in a little while  
you'll feel stranger  
up in your mind  
i'm a soldier, baby
