The only way I can get through the day
Is to make our life like it was yesterday
I get up in the morning after crying all night long
Laughing and talking like there ain't nothing wrong.
Cause if I ever, if I ever face reality
I know, yes I know that it's gonna be the end of me.

Chorus:
So see and don't see, hear and don't hear,
Know and don't know and cry
So see and don't see, hear and don't hear,
Know and don't know, and please make that girl stop
hurting me

I see that love look in her eyes
Just the way she is used to look at me
And I hear she's telling you
Pretty soon I'll be free!
I must look pitiful standing here in the dark all by
myself
The only way I can take it is pretend I'm someone else!
Cause if I ever, if I ever face reality
I know, yes I know that it's gonna be the end of me
And if the whole world keeps turning, turning, turning
time around
I'm gonna away, I'm gonna away till it turns back
around.

Chorus:
So see and don't see, hear and don't hear,
Know and don't know and cry
So see and don't see, hear and don't hear,
Know and don't know and cry
So see and don't see, hear and don't hear,
Know and don't know and cry
So see and don't see, hear and don't hear,
Know and don't know, and please make that girl stop
hurting me
