Stop I need some lovin, just not from anyone, but
everyone...everyone....

So you wanna live your life? Well come with me....Come
with me to the place where I feel alive..Dont be afraid,
Just close your eyes

Take this life and hold it tight, Sing like you mean,
dream like you need it
Take this life night by night, Sing like you mean it,
dream like you need it

Oh lord have I lost my mind? "No Child you've stopped
wasting time" You know its always on my mind

Step outside and squint your eyes, with every breathe
you feel alive, or feel free and not deprived...from all
the things your meant to try...
Take this life and hold it tight, Sing like you mean it,
dream like you need it Take this life night by night,
Sing like you mean it, Dream like you need it

Sold my soul for rock and roll....yeah , come on

Now we know, we know....everything.

Take this life, hold it tight, sing like you mean it think
like you mean it
