This is the sound. Can you feel it? Taking over - It's taking over. This is the sound. Can you feel it? Taking over - It's taking over.

I've fallen back a few steps. Only to find I'm a few steps ahead. And that I - I still don't know anything at all. Anything at all. All these steps and all these places. I know that I'm still falling - I know that I'm still falling down. And I can only hope and pray that I'm still falling. Back to where.

This is the sound. Can you feel it? Taking over - It's taking over. This is the sound. Can you feel it? Taking over - It's taking over.

It's there on the horizon. Like a big majestic sky. I can feel it getting closer. And I'm running with open eyes. And it reminds of a place. Where I have never been. A song I've never heard. An honest voice so true. That it rings chills when I hear it again. For the first time. For the first time. Yeah I'll take you through the valleys. And I'll guide you in the storm. This song lives on forever. So open your heart and sing.

Until I get another sign. I'll hold on. I need you more than ever. Than I ever knew I would. That I would.
