Mirror, mirror (x4)

CHORUS:

Mirror, mirror
Am I just like you?
Mirror, mirror
We look the same but is it true?
Mirror, mirror
Sees through idol dreams
Mirror, mirror
It never goes, its never been

And as all the people gaze
With starry eyes
The mirror reflects,
A wish for a disguise
Forecast is set to change,
To what's popular these days

(CHORUS) x2

You're just another clone,
In a world that has no shame
In other words,
It's you that is to blame

Forecast is set to change
To what's popular these days (x2)

(CHORUS) x2
