The task is set, and expectations are met
so raise the bar to the level

Turn to me, in your time of need
Turn to me, you planted the seed
Turn to me, you made me bleed
Turn to me: i fulfilled your dirty deeds

And with a vacant black stare
See through the lies that i bare
And what's left is reality
You found out the real me

So take the blindfold, take the blindfold off your eyes
Consume the lifestyle, consume the lifestyle that you
hide
Read the signs that, read the signs that you deny
I am only human

(repeat all)

Hey now, what you see is what you believe
Hey now, what is to see it cannot be seen (x2)

And with a vacant black stare
See through the lies that i bare
And what's left is reality
You found out the real me

So take the blindfold, take the blindfold off your eyes
Consume the lifestyle, consume the lifestyle that you
hide
Read the signs that, read the signs that you deny
I am only human
