Paint your line across the sky
And I will listen for the song that you sing
Take me with you when you fly
Silver bird I want to ride on your wings
Oh carry me home, won't you take me home

Everyday is like a dream
Every moment spent with you on my mind
It's been so long or so it seems
Am I losing all my senses of time
Oh carry me home, please take me home

Me, I never thought I would feel this way, oh no
Not me, I miss you more than these words can say
Want you to know
I'm missing you

Are you lonely on your own?
How I wish that I could be there with you
I think about your favorite songs
And all the funny little things that you do
Oh won't you carry me home, won't you carry me home
