Your love is like a laser burning right into my life  
You knowing my weaknesses you cut me like a knife  
You're separating all the wrong things from the right

It's like a laser laser love

Your love is like an x-ray there is nothing I can hide  
You hold me to the light you see what is inside  
It's all so clear when it's there in black and white

Just like a laser laser love

Now and then I think about my life  
Think about the way that it used to be  
I was just a lonely boy standing in the cold until you  
sheltered me  
Trying to find a way that I could do everything I want  
And somehow still be free  
Then you came along and told me how it really had to  
be

It's a laser love  
It's a laser love  
Just like a laser laser  
Just like a laser laser love

Your love is like an optical illusion in a book  
There's more than one way you can see it when you  
took  
And when I saw it the world around me shook

Like a laser laser love

Your love is like a laser burning right into my life  
You know my weakness you cut me like a knife  
You're separating all the wrong things from the right

It's like a laser laser  
It's like a laser laser  
It's like a laser laser love
