Lord now I feel that there's something I'm wanting to
say
A feeling that's real, don't know why that I'm thinking
this way
But now that I've found this is right
I guess that I'd better give up this fight
Lord now I feel that there's something I'm wanting to
say

Well what are the words you want me to speak
Come teach me some holy line

One thing I've learned is blind eyes can see
Oh open my eyes

You're wanting my life, I'm here on my knees
Please set my heart on fire

Ok, I, I'll live my life
And I will learn to do what's right
My eyes accustom to new light
My past behind me out of sight

Now I'm talking to you of a love to cling to
Just believe this story true
Yes I'm talking to you of a love to cling to
Just believe this story true

This love is the greatest thing
This love is the greatest thing
This love is the greatest thing

Lord now I feel that there's something I'm wanting to
say
A feeling that's real and I'm glad that I'm thinking this
way
Now that I've found this is right
