

After The Fire

"Power Of A Jet"

Visit "[Power Of A Jet](#)" on MotoLyrics.com

Like the rushing of the wind, like the crashing of the sea.

Like the thunder when it's high, that's what your love is like to me

That's what it, that's what it, that's what it's like to me

Like the Power of a jet, will push you back into your seat

It climbs into the sky, that's what love is like to me

That's what it, that's what it, that's what it's like to me

(Here's the power of a jet now)

Moving down an open road, with an element of speed

Feeling good to be alive, that's what your love is like to me

Like the power of a jet, will push you back into your seat

As it climbs into the sky, that's what your love is like to me

That's what it, that's what it, that's what it's like to me

(We're going to take off now - here we go!)
