I am a minute and you are an hour
I am a room and you are a tower
I am a motion and you are the power, you are the
power
I am a word and you are the line
I am a poem and you are the rhyme
I am a watch and you are the time you are time

You make my life worth living, you set this world on fire
n' just
When I think its over, you take me higher, you take me
higher

I am an hour and you are a day
I am a step and you are the way
You are the words that I want to say, I want to say
I am a player and you are the game
I am a number and you are the name
I am a spark and you are the flame, you are The flame.

You make my life worth living, you set this world on fire
n' just
When I think its over, you take me higher, you take me
higher
You know, you know you take me higher, you take me
higher

I am a day you are a year
I am a breath and you are the air
You are the words that I want to hear, I want to hear
When you're beside me I will fear no ill
Your rod and staff my comfort still
The world can throw at me whatever it will, whatever it
will

You make my life worth living, you set this world on fire
n' just
When I think its over, you take me higher, you take me
higher
