Thursday morning waking
And lots of people crying
But I thought I saw angels there
Flying through the charnel air

They whispered don't you worry
For someone's petty hate and crimes
For good is here and everywhere
And God is always on our side

I saw my wife's eyes fill with tears
That her belief should bring us here
But don't you worry my fair dame
Yours and theirs just ain't the same

I told her these are not your sins
They're someone else's petty crimes
For good is here and everywhere
And god is always on your side

Hold me

The world I know's about to blow

Hold me

The world I know's about to go

Hold me

My life's as far as I can breath

Hold me

Don't know if I can bare to see

If good's still here and everywhere
And God is always on our side
