This is wrong this is circumstance  
To watch kadavers leap for an ambulance  
Planes will drop from the sky  
Like they were never built to fly  
And my eyes will do their best to explain this nightmare  
Unfolding its first act in the dreams i can't control  
Bring me back

Everyone is missing from this world and I am left  
With ghosts of merories played slowly  
Step outside to burning cars and choas reigning  
Is this what I call my

(Chorus 1)

Home replaced with a foreign face  
My friends deserted their lives today  
Why would I be left alone  
I don't have a desire to stay  
So why would I be condemed this way  
All I know is telling me to find a way to leave

Running down an empty streat feels fruitless  
Until light cuts into my eyes from up above  
Windows house a group of lost with flashlights carving  
Clouds are conquering my

(Chorus 2)

Hope is fading like stars that die  
And time is losing its grip on life  
Why would I be left alone  
I don't have a desire to stay  
So why would I be condemed this way  
All i know is telling me to find a way to leave

(Bridge)

Open the window  
Darkness  
Run down the hallway  
Rotting  
Climb up the staircase  
Falling  
Everything is dead or dying

Dead Burn logic  
Dead fail reason  
Dead God help me

(Chorus 1)
