"Not a Worry in The World"

Visit "[Not a Worry in The World](#)" on MotoLyrics.com

Do you remember all the things we did?
And what it's like to be a kid.
Being young and skipping school,
I guess we must have broken every rule!

I never thought those times would last forever,
But now that they're gone
I'm pretty sure we grew up to fast.

I've had my wishes on a star
I hope that yours came true.
Now all I've got is a memory of you.

[Chorus]

Not a worry in.. [x7] ... the world!
I remember when you moved away,
You promised me that you'd be back one day,
But times have changed and so have I,
It sucks that friendships end
With a goodbye.

I never thought that friendships last forever.
But now that you're gone
I'm pretty sure we end up all the same.
Still I won't say goodbye.
Won't ever say goodbye.
And know that I'll always be your friend.

[Repeat Chorus]
