

## Ataris "Radio No.2"

Visit "[Radio No.2](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Meet me at midnight  
At the broadcast tower  
High above the hollywood sign  
You bring your guitar and I'll bring my radio (radio)

Everyone will come from miles around  
To witness this beautiful site  
We'll set bonfires and pretend its the 4th of July

This is the starting of a brand new revolution  
Bite the hand that feeds  
Stand up and fight against messages that they're  
sending  
Stop their frequency

You're always talkin' (its never ending)  
It's about time that we turned off the radio  
Call the request lines and tell them that it's over  
You're always playin' all of the same songs  
Over and over again  
It's about time that we all turned off the radio

We'll listen to b-sides and sing along  
To anthems of the years gone by  
Integrity and honesty will prevail tonight  
When it's all over (when it's all over)  
One question still remains  
Why do so many bands never make it to the radio?

*[chorus]*

Look outside your FM dial  
They're preaching lies in 4/4 time  
A generation without a voice  
It's stripped of pride
