I need a girl who like to go to shows
I need a girl that won't make fun
Of my Clothes.
I'm looking for a special girl who
Wants to go all over the world,
If you're my special girl won't you
Let me know?
Would you let me know?

Do you have a boyfriend?
Or possibly a girlfriend?
Cause! I'm lonely all the time
And I wish that it would end.

I need a girl that likes to stay out late,

We'd share a cocktail, wouldn't it be great?
If only this were true
Then I would fall in love with you,
I'm looking for a special girl...
Could it be you?

I could write a stupid love song,
And sing it all across the world
But it wouldn't mean a thing.
Until I find my special girl.

When will I find my special girl? [x9]
