"The Western Decay"

Visit "[The Western Decay](#)" on MotoLyrics.com

All you've realised is that the time is running out...
All you've realised is that the time is running out!
If you testify that throw your fist up!
Throw your fist up! Throw your fist up!
The revolution and I... the revolution and I...

There is no use in the western decay.
For me and you! No Delay!
This is what I say in return of the restrictions...
Another retribution : We Ain't Forgiving!
We set the countdown ... now! We ain't going back.
A friction of no return - the final trap!
It's the only way out!

The year 2000 but what have we got?
I am in position to the sun... the heat too strong to feel...
It's the final incursion of an alienated generation
I'll give you a last proposal...

Incite the fight! We ain't slow down!
Psychological warfare pulverising my mind!
But I pull ahead - push ahead the masterplan!
Digital Hardcore - they call it an un-sound
We call it : Murder!

The revolution and I... the revolution and I...
Back to back we ain't forgiving! Atari Teenage Riot!
Stop the Roll-back. Back to back we ain't forgiving.
Stop the Roll-back. Stop the roll-back.
Stop the Roll-back. The revolution and I.
Stop the Roll-back. Reverse the process now!

Reverse the process now.
Stop the roll-back. Stop the roll-back.
Now! Stop the roll-back.
we never stop... we never stop. Never stop. Don't stop!
Keep on pushing...
and the time is running out...
