

Atari Teenage Riot "U.S. Fade Out"

The mystery of the new world order
America, you should leave
You should leave
America, you should leave

If you can't live your dream
And only the fear of dying
Keeps you going

And then your life becomes
Just another digital restorage
We are sentenced to death
Before we were even born

I can't feel you anymore
I can't feel you anymore

You fade away, you fade away
You fade away, you fade away
You fade away, you fade away
You fade away, you fade away

You fade away, you fade away
You fade away, you fade away
You fade away, you fade away
You fade away

Away
Away
Away
Away
