"Start Today"

Visit "[Start Today](#)" on MotoLyrics.com

I gotta start today with a brand new feeling
Get rid of evil thoughts and prime my mind
I take it as it is in this chaotic world
Recognize and choose my own values

I was taught by my life
Nothing Comes from nothing
So I gotta move all the time
I gotta find my place
The most important thing is
To keep your faith strong

I gotta start today with a brand new feeling
Under the sun
What's my purpose in life
I've got precious love
It's in my body
I will keep and protect it forever

Was taught by my life
Nothing Comes from nothing
So I gotta move all the time
I gotta find my place
The most important thing is
To keep your faith strong
