When we sleep
Darkness brings us release
all you need
you can find it in me

Stay with me
as my heart surrenders
Comfort me
as I fall I cry

Standin' in the rain
Twisted and insane
We, are, holdin' onto nothing

Feelin' every breath
Holdin' no regrets
We're, still, lookin' out for something

Standin' in the rain

Twisted and insane
We, are, holdin' onto nothing

Feelin' every breath
Holdin' no regrets
We're, still, lookin' out for something

Standin' in the rain
Twisted and insane
We, are, holdin' onto nothing

Feelin' every breath
Holdin' no regrets
We're, still, lookin' out for something
