Standin' in the rain  
Standin' in the rain  
Standin' in the rain  
Standin' in the rain

When we touch  
I feel something happen  
When we breathe  
All the world is undone

Stay with me  
As my heart surrenders  
Comfort me  
As I fall I cry

When we sleep  
Darkness brings us release  
All you need  
You can find it in me  
Stay with me  
As my heart surrenders  
Comfort me  
As I fall I cry

Standin' in the rain  
Standin' in the rain  
Standin' in the rain  
Standin' in the rain

Standin' in the rain  
Twisted and insane  
We, are, holdin' onto nothing

Feelin' every breath  
Holdin' no regrets  
We're, still, lookin' out for something
